

CARO Analytical Services is a Western Canada based environmental and food analytical laboratory full of smart, engaged scientists driven to make the world a safer and healthier place. CARO provides professional analytical testing services to public and private clients throughout Canada. With operations in Edmonton, Kelowna and Richmond, CARO strives to achieve its mission of providing clients with complete peace of mind through the highest level of service, technical excellence and quality control.

DESCRIPTION: Toxicity Analyst - Edmonton, AB

Reporting to the Manager, the analyst will perform toxicity production and developmental work and other laboratory duties as directed out of CARO's Edmonton laboratory location.

RESPONSIBILITIES:

- Independently perform water analysis required for rainbow trout and daphnia toxicity
- Capable of lifting 20-30lb containers
- Be familiar with and adhere to all QC procedures
- Meet quality and turnaround time specifications as required by the client
- Relay results and information to toxicity clients via phone and email
- Processing, checking and validating toxicity data
- Troubleshoot and optimize any toxicity problems
- Perform sample, reagent and calibration standard preparation
- Ensure that all Standard Operating Procedures are followed
- Maintain control charts as per the QA/QC manual requirements, monitor for failure to meet tolerances and institute remedial action immediately

QUALIFICATIONS:

- Degree in chemistry, Technical Diploma or equivalent
- Experience in an analytical laboratory setting preferred
- Proficient with standard computer software (MS Office, LIMS, etc.)
- Flexible in working hours (evenings, weekends) during peak periods
- Strong oral and written communication skills
- Good time-management, problem solving, multi-tasking and priority setting skills
- Ability to work independently and adapt to a changing environment
- Detail orientated
- Ability to accurately follow Standard Operating Procedures (SOP's) and instructions

CARO Analytical Services offers attractive potential for career advancement, with competitive remuneration and benefits. If you aspire to a career with a thriving, fast-paced and growing environmental and food laboratory with top quality people, consider CARO.
